**DETAILED ACTION**

***Response to Arguments***

Applicant's arguments with respect to claims 1,3-6,8-13,15-19,21,35-36 have been considered but are moot in view of the new ground(s) of rejection.

***Election/Restrictions***

Claims 1,3-13,15-19,21,25-28 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention (Figure 4C described at page 11 lines 1-23 of applicant's specification), there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 4-6-05.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 35-36 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 35-36 appear directed to the elected species of figure 4B and described at page 10 lines 30-36, however they depend from claim 1 which is directed to figure 4C. The specification as originally filed failed to

disclose an embodiment combining the features of perforations or patterns extending through only a portion of the graft material in combination with anisotropic material.
